

Advanced Robotics in Manufacturing

- Organization: Robotics Corp.
- Department: Mechanical Engineering
- Start Date: 2023-06-01
- End Date: 2025-06-01
- Stall Coordinator: Prof. Laura Collins
- Desired Outcome: Increase automation in manufacturing processes.
- Payment: \$500,000 over two years.
- Description:

This project seeks to integrate advanced robotics and AI into manufacturing to improve efficiency, reduce errors, and enhance workplace safety.
