

Partnership for AI Research

- **Organization:** AI Innovators Ltd.
- **Department:** Computer Science
- **Start Date:** 2023-01-01
- **End Date:** 2025-12-31
- **Stall Coordinator:** Dr. Alice Johnson
- **Desired Outcome:** Develop AI models for healthcare diagnostics.
- **Payment:** \$200,000 over two years.
- **Description:**

This partnership aims to leverage advanced AI algorithms to create diagnostic tools for healthcare professionals, including predictive models to improve decision-making in patient care. The collaboration will explore AI's potential to analyze large datasets for early disease detection, improving healthcare outcomes.
